Salt Lake City, Utah

Attention: Mr. James E. Wetherell  
Vice President

Gentlemen:

This is to acknowledge receipt of your notice of intention to drill Well No. Federal 1- 35 E, which is to be located 260 feet from the north line and 2287 feet from the east line of Section 35, Township 10 South, Range 25 East, S14M, Uintah County, Utah.

The proposed location of this well does not comply with Rule C-3(b) of our General Rules and Regulations and Rules of Practice and Procedure; nor has information been furnished for an unorthodox location as required by Rule C-3(e) of said rules and regulations.

Before approval can be granted for drilling this well, it will be necessary for you to file a new notice of intention to drill in compliance with Rule C-3(b), or if an unorthodox location is necessary, a request for such spacing must be made as required by Rule C-3(e).

Yours very truly,

OIL & GAS CONSERVATION COMMISSION

CLEON B. FREIGHT  
EXECUTIVE SECRETARY

Re: Well No.1-35 E  
Uintah County, Utah

Dear Mr. Russell:

Enclosed please find, in triplicate, an amended Notice of Intention to Drill on the above captioned well. This Notice of Intention to Drill replaces the one originally submitted to your office on August 5, 1960, and sets out that we will set 150 feet of 10 3/4 inch pipe instead of 30 feet.

Also enclosed is a carbon copy of a letter sent this day to Mr. Feight of the Oil & Gas Conservation Commission.

Very truly yours,

OIL INCORPORATED

James E. Wetherell  
Vice President

**OIL INCORPORATED**

901-907 WALKER BANK BUILDING

SALT LAKE CITY 1, UTAH

August 12, 1960

Cleon B. Feight  
Executive Secretary  
Oil & Gas Conservation Commission  
310 Newhouse Building  
Salt Lake City 11, Utah

Dear Mr. Feight:

I am enclosing a revised Notice of Intention to Drill for the Oil Incorporated 1-35 E Federal. The only revision is to specify in our casing program that 150 feet of 10 3/4" surface casing will be set with 75 sacks of cement.

We are currently drilling on a well within the Bonanza Unit using the 30 foot surface backed up by several thousand feet of well cemented intermediate, which has worked out entirely satisfactory, but rather than apply for an exception we agree to follow your minimum surface pipe requirements.

In accordance with your Rule C-3(c) we respectfully request an exception to your spacing rule because of the extremely difficult terrain surrounding this location. To move the location southward the required 400 feet would involve a change in elevation of an estimated 500 to 700 feet.

The location proposed is in a small side canyon leading into Hell's Hole Canyon, which in itself is a prominent dry tributary to the White River. There is an existing oil field road that runs in Hell's Hole Canyon to the head of the canyon then climbs Rabbit Mountain then descends the other side in Colorado into the Dragon Trail road. To reach the location in the center of the 40-acre tract involved it would be necessary to start from the point where this road reaches the top of Rabbit Mountain Ridge, and come down that ridge staying on top a distance of some twelve miles at an estimated cost of \$24,000.00. This

C leon B. Feight  
August 12, 1960  
Page 2

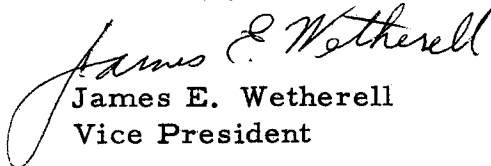

cost estimate was given us by the Mid-States Construction Company, a general road contractor of Grand Junction, Colorado. The same contractor has given us a firm bid of \$900.00 to construct the road and location as proposed.

According to our experience with a well of similar depth two and one-half miles north of this location and within the Bonanza Unit, we would expect to drill this exploratory well for a total cost of \$22,000.00. If the road costs necessary to drill the well in the center of the 40 were made mandatory it is doubtful that the well would be drilled because of the economics.

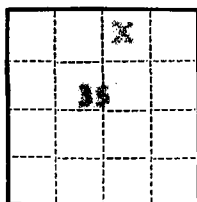

Your early attention to this request for exception to Rule C-3(c) is respectfully requested.

Very truly yours,

OIL INCORPORATED
